SECSAWAY

BRAND GUIDELINES

Identity Standards

VERSION 1.0 — 2026

CONTENTS

What this book covers

The rules for using the Secsaway identity consistently, from a 16-pixel app icon to the side of a 40-foot container.

01 — BRAND FOUNDATION

Every handover is a promise.

For businesses and individuals who cannot afford a missed delivery, Secsaway is the logistics partner that treats every handover as a commitment: tracked, documented and on time.

MISSION

Move our clients' goods on time, in full, with a clear record of every handover.

VISION

Be the logistics company our clients never need to chase.

Punctual

We give a time and we keep it. When we can't, the client hears it from us first.

Accountable

Every handover is signed, scanned and recorded. We own the shipment until it is delivered.

Precise

Correct paperwork, correct weights, correct address. Small errors cost our clients days.

Steady

Customs holds and road closures happen. We stay calm and find the next route.

BRAND VOICE

Clear. Calm. Exact.

02 — LOGO

Primary logo

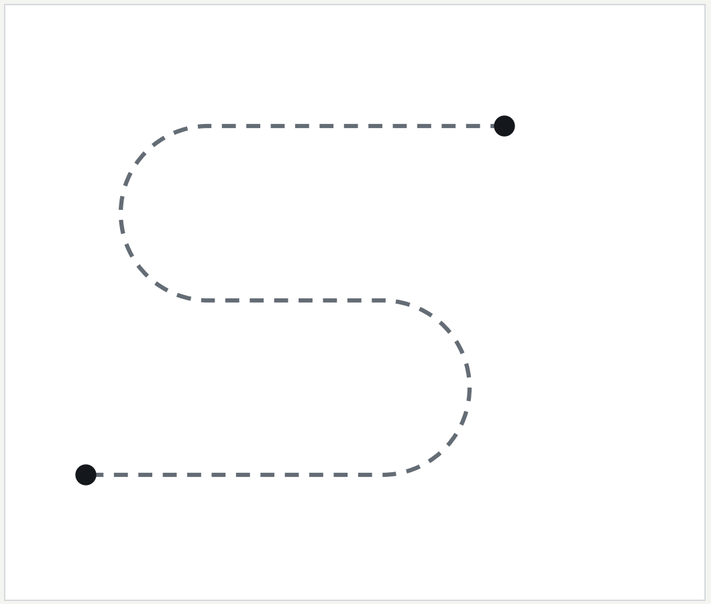

The horizontal lockup is the default. Use it wherever there is enough width. The orange mark and navy wordmark are the only full-colour combination on light backgrounds.

Signal Orange mark · Depot Navy wordmark

02 — LOGO CONCEPT

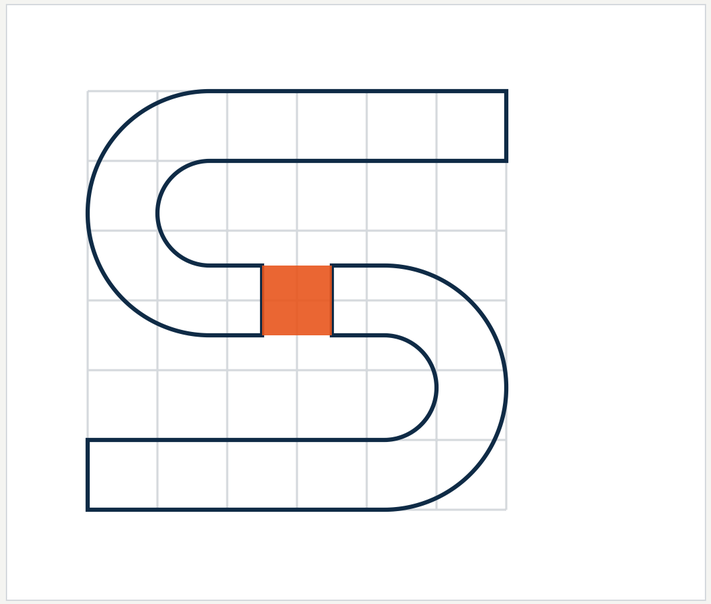

Two routes, one handover

The mark is rotationally symmetric. Turned 180°, it is unchanged: the sender's route and the receiver's route carry equal weight.

01 **Route**

A single delivery route: a straight run, one turn, a straight run. Drawn as one line from sender to receiver.

02 **Handover**

The route is split into two identical strokes. The gap between them is the handover point, where Secsaway takes responsibility.

03 **Mark**

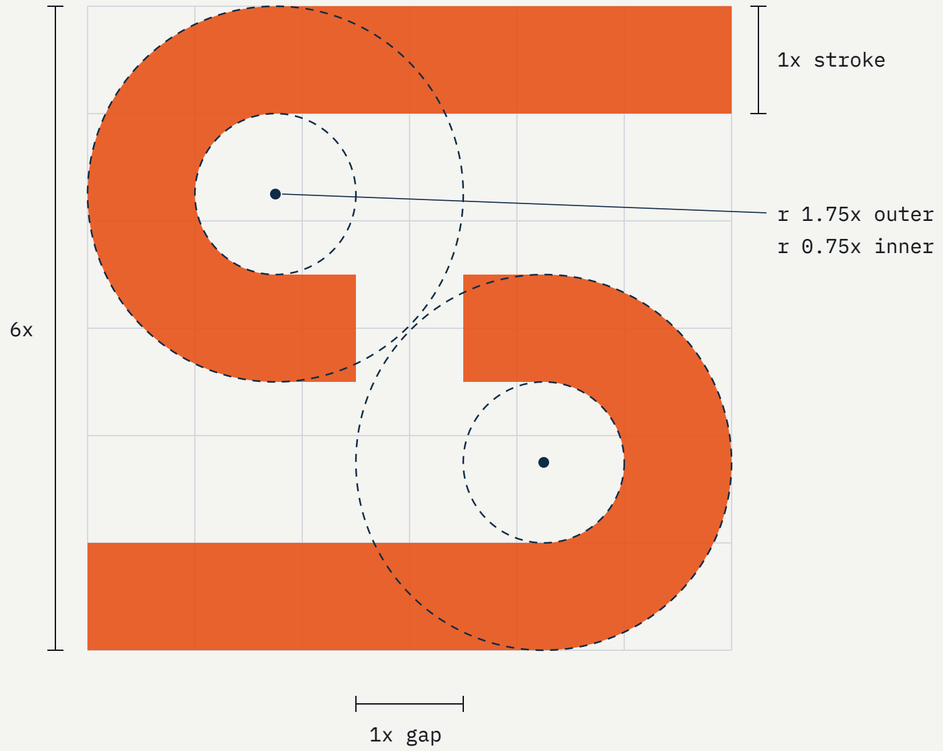

Set at a heavy, even weight on a 6x grid. The result reads as an S at 16 px and as a route at 16 m.

02 — CONSTRUCTION

Built on a 6x grid

One unit, x, controls every proportion. x equals the stroke weight of the mark.

Mark	6x × 6x
Stroke & handover gap	1x
Turn radius (outer / inner)	1.75x / 0.75x
Mark to wordmark	2x
Wordmark cap height	3x
Angles	0° / 90° only

02 — CLEAR SPACE & MINIMUM SIZE

Room to be seen

Keep 2x of clear space on every side. No text, edge or other graphic may enter it.

Minimum size

	PRINT	SCREEN
Horizontal lockup	35 mm	140 px
Stacked lockup	22 mm	96 px
Mark only	6 mm	16 px

Mark at actual size

16 px 24 px 32 px 48 px

Below 24 px, use the single-colour mark. The 1x handover gap stays open at 16 px.

02 — VARIATIONS

Logo variations

Use full colour wherever possible. Single-colour versions are for one-colour print, embossing, engraving and vehicle vinyl.

Horizontal · full colour

Stacked · full colour

Mark only

Single colour · Ink

Single colour · reversed

On Depot Navy

02 — MISUSE

What not to do

Always use the master artwork files. Never redraw, retype or modify the logo.

Don't stretch or squash

Don't recolour

Don't rotate

Don't outline

Don't add shadows or effects

Don't place on busy backgrounds

03 — COLOUR

Navy for trust, orange for action

Depot Navy carries the brand. Signal Orange is the colour of hi-vis and safety markings, used sparingly for the mark and calls to action.

USAGE RATIO

55 25 10 5 5

CONTRAST (WCAG 2.1)

04 — TYPOGRAPHY

Two typefaces, clear roles

Aa

Archivo

Primary. Headlines, body text and interfaces. The wordmark is drawn from its ExtraBold weight.

Aa

IBM Plex Mono

Secondary. Tracking numbers, weights, times and labels: anything a driver or clerk must read exactly.

Both are free under the SIL Open Font License from Google Fonts. Fallback: Arial and Courier New.

H1 · DISPLAY

05 — BRAND PATTERN

Patterns from the mark

Both patterns use the mark's own geometry, so they can fill large surfaces without adding a new graphic language.

A · Network

The mark tiled with alternate 90° turns, 1x apart. Tone-on-tone only: Navy on Navy +8%. For cover pages, vehicle rears and packaging.

B · Route

Single strokes from the mark at 1.5× scale, widely spaced. Steel on Paper. For documents, the website and interiors.

RULE

Never place the logo on top of the pattern without a clear-space panel, and never combine the two patterns on one surface.

06 — ICONOGRAPHY

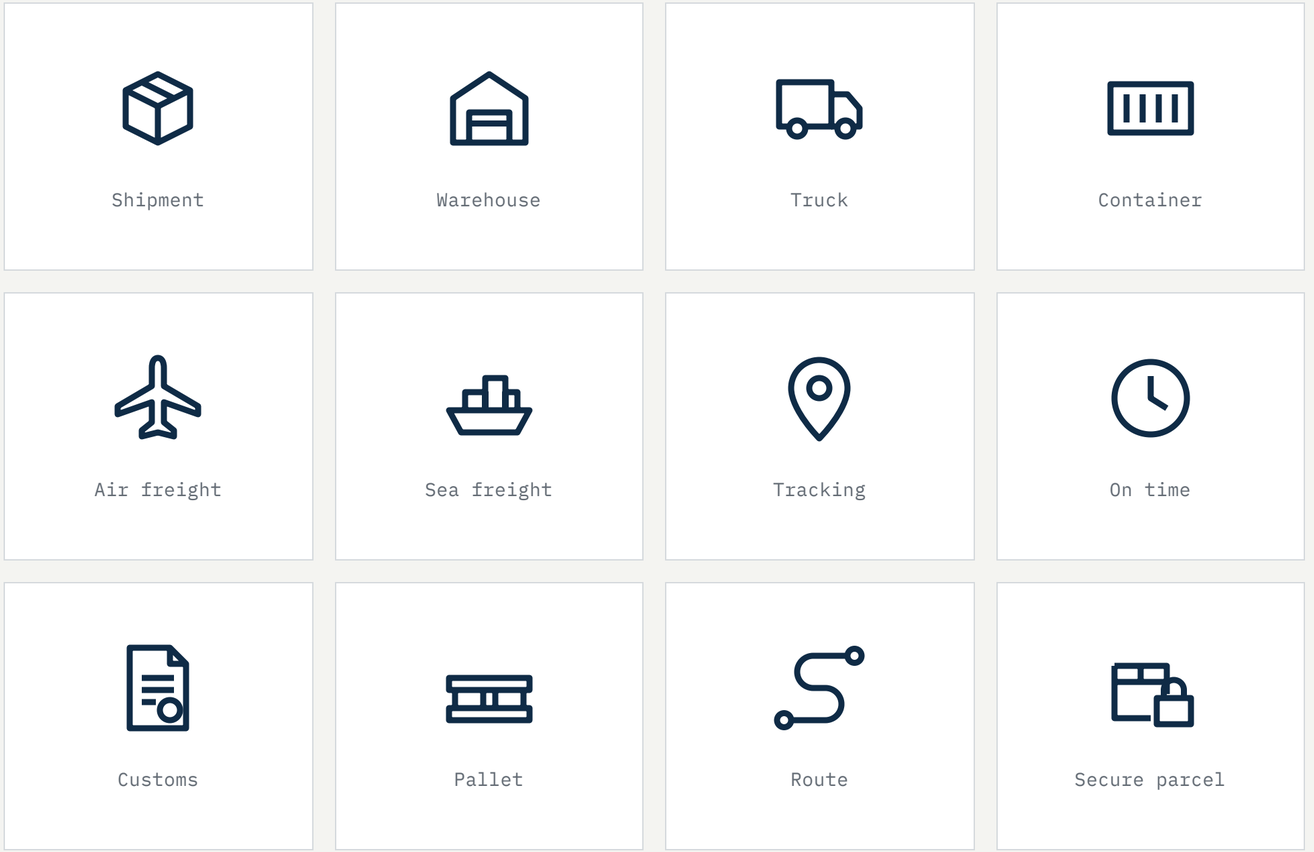

A matching line icon set

Twelve service icons drawn with the same rules as the mark.

Grid	48 × 48
Live area	40 × 40
Stroke	3 px
Ends / turns	Square / round

The Route icon reuses the S turn from the mark. Icons are Navy or Ink; Orange only for an active state.

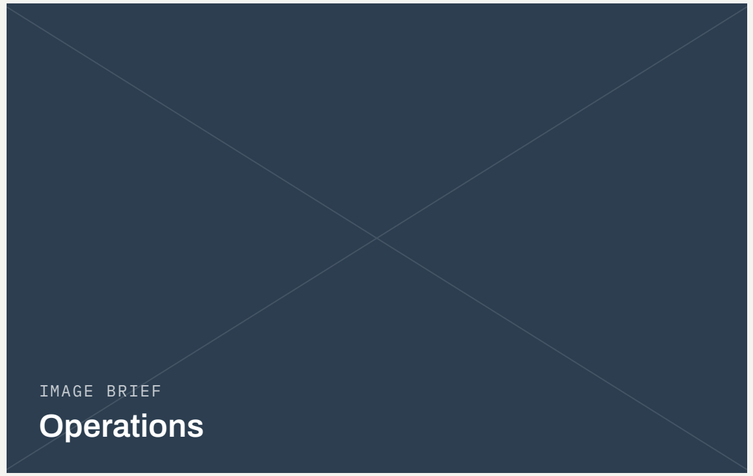

07 — PHOTOGRAPHY

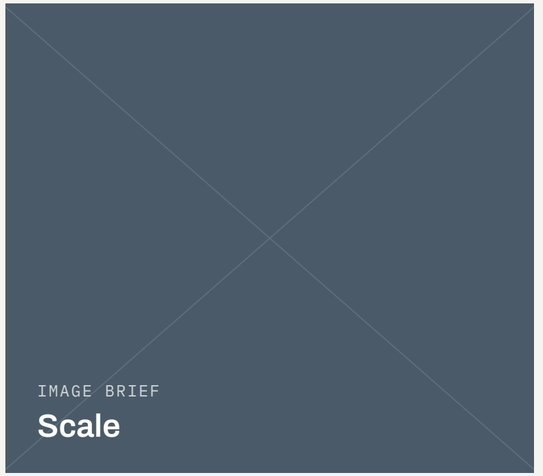

Real work, real places

Photograph Secsaway's own people, vehicles and depots. The images should look like evidence that the work is being done.

Light	Natural daylight, early or overcast
Grade	Neutral to slightly cool, true colour
Framing	Eye level, horizon straight
People	Staff in uniform, mid-task, not posing

A loader checks a pallet label against the waybill. Hands, scanner and paperwork in frame.

A row of Secsaway trucks at the depot gate at dawn, shot square-on.

Close-up of a sealed container door, seal number legible.

AVOID

Stock clichés

Handshakes, glowing globes, network lines, generic smiling couriers.

08 — STATIONERY

Stationery

One-colour orange base rule on every printed item. Business card 85 × 55 mm, letterhead A4, envelope DL. Names and contacts are placeholders.

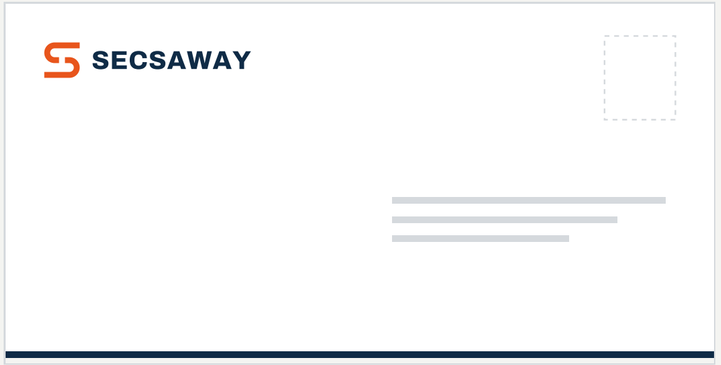

Letterhead · A4

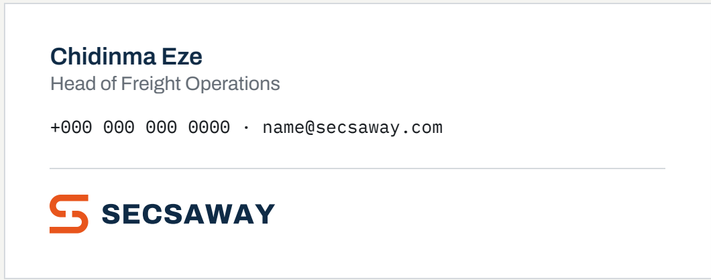

Business card · front

Business card · back

Envelope · DL

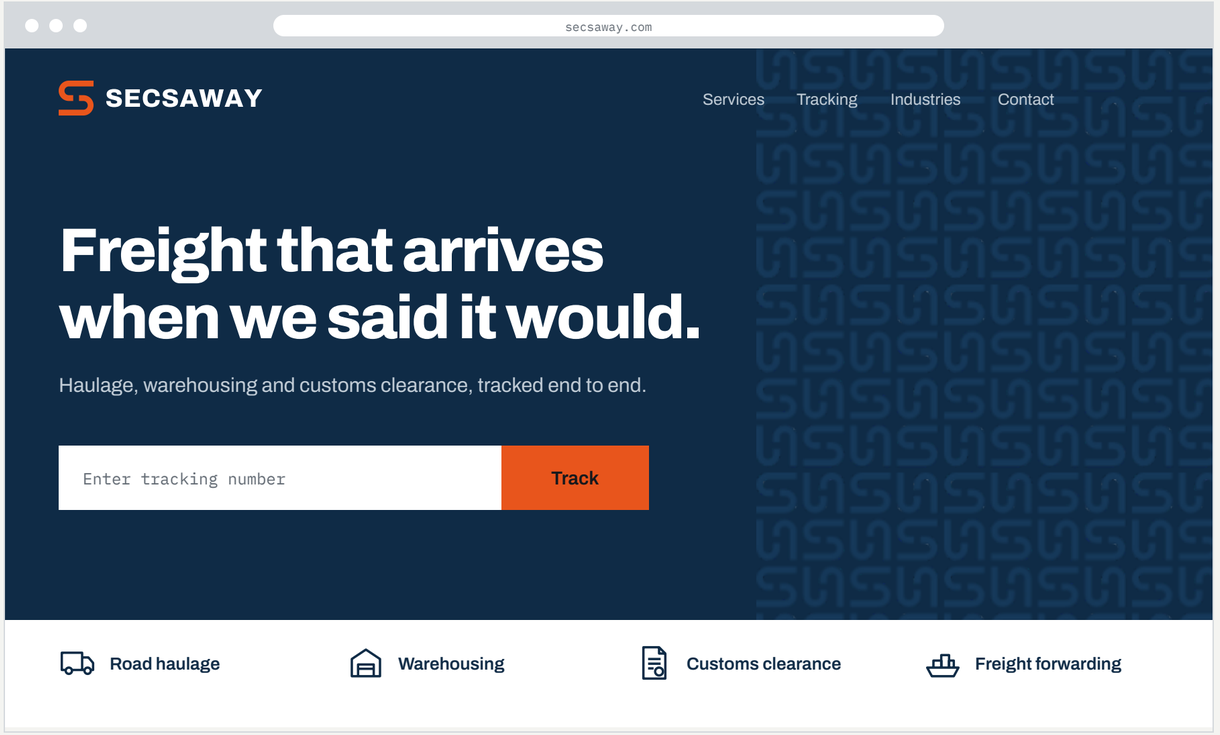

Email signature

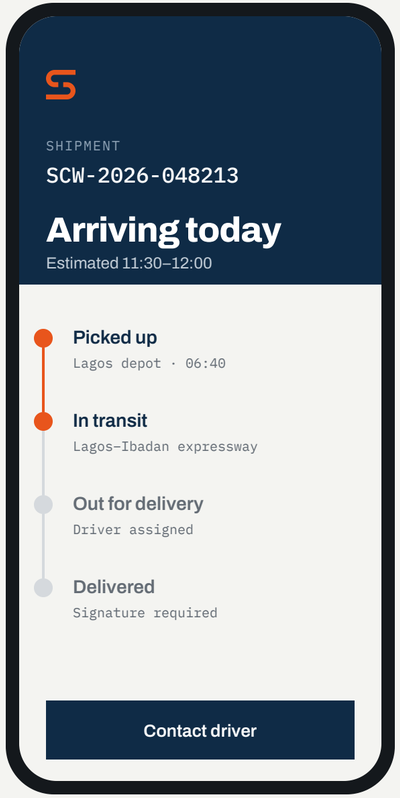

08 — DIGITAL

Digital

Navy grounds, white type, one orange action per screen. Tracking data is always set in IBM Plex Mono.

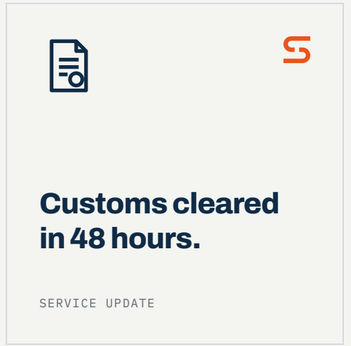

Website · home hero

App · shipment tracking

Social posts · 1:1

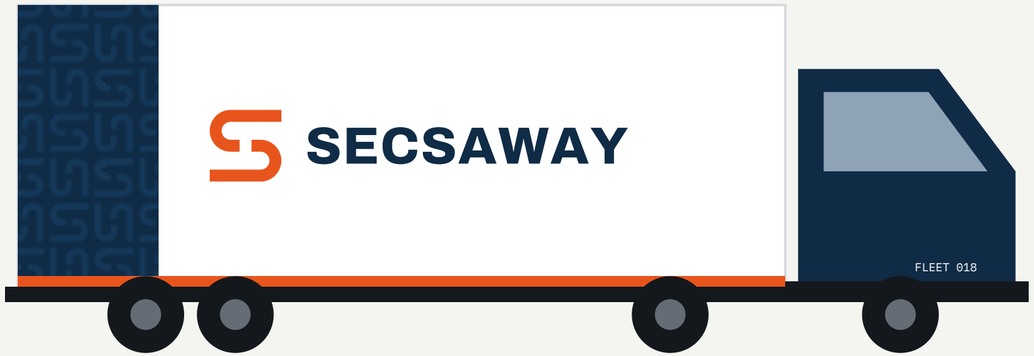

Profile picture

08 — FLEET & SIGNAGE

Fleet & signage

Vehicles are the most visible brand asset. White box bodies keep the wordmark readable at distance; navy cabs, an orange base stripe and the Network pattern on the rear.

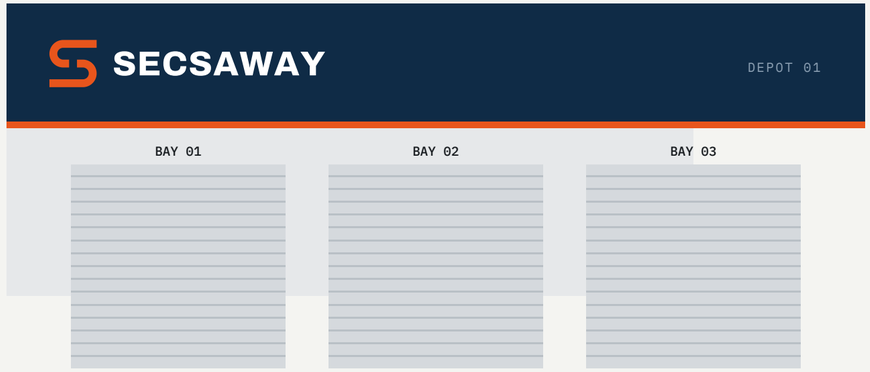

Rigid truck · side livery

Delivery van · side livery

40 ft container · owner code SCWU

Depot facade & loading bays

08 — PACKAGING

Packaging & documents

Corrugated boxes print one colour, Navy, on natural kraft. Labels and waybills keep the logo at the top and every variable field in IBM Plex Mono.

Shipping carton · 1-colour flexo on kraft

Packing tape · 48 mm

08 — MERCHANDISE & UNIFORM

Uniform & merchandise

Uniforms carry the mark small and the role large. Hi-vis garments follow EN ISO 20471 colours; the logo is printed in Navy, never reflective.

Staff polo · Navy, embroidered mark

Hi-vis vest · Class 2, printed lockup

ID badge & lanyard

Cap · Navy twill, embroidered mark

Tote · natural cotton, 1-colour print

Mug · Navy glaze, orange mark
